- Librarian
Dave Plowright

Carl Durance brought in several samples of wonderfully turned Kaleidoscopes. Not only were his projects great to view; but the method of putting the insides of these kaleidoscopes together was most interesting.

Carl showed us the importance of using good quality mirror, and taking your time putting the mirrors together. He also explained the difference it makes to your project by using 2, 3, or more mirrors in each kaleidoscopes.

After learning the intricacies of building the kaleidoscopes, we looked at the different ways woods can be laminated to

make patterns in your turning.

Thank you so much Carl, for a most interesting demonstration.

Carl Durance explaining how a Kaleidoscope works with light.

August Meeting - KALEIDOSCOPES	1
WEB UPDATE	1
RAFFLE DRAW	2
September Meeting- SAFETY	2
CHRISTMAS - Is just around the corner	2

WEB UPDATE www.gbwg.ca

At the August meeting Carl handed out forms to be completed by anyone who has had photos taken for our guild website.

Please support Carl in this project by returning these forms to him at the September meeting, if not already handed in to him.

Carl will appreciate articles, photos, links and suggestions. He can put the site together but he needs subject matter to do so.

THANKS FOR YOUR INPUT!!

RAFFLE DRAW

We had a great selection of different woods and woodturning articles to choose from this month.

If you had time to create something from your winnings, please bring them in to the September meeting!

REMINDER: if you won anything from the raffle draw in August please bring something in for the September Draw.

Bark on the edge of this bowl adds character and texture.

Meeting Saturday September 15th 2007

SAFETY

Irwin Seidman will be bringing us all up to speed with safety in the workshop.

He will also have a sample of the *Triton Respirator* with him you are welcome to try. The sale price of \$199.00 will be held for anyone wishing to purchase one from him.

This is an excellent opportunity for New Members as well the rest of us.

**Safety should
be our #1
priority in the
workshop!!**

CHRISTMAS IS JUST AROUND THE CORNER

Are you making gifts and Christmas decorations?

Would you like to share them with our members?

We have 4 meetings until the holiday season!!

Let us know about your talents at the September meeting. Hopefully we can arrange a date to

show off our Christmas Ideas and perhaps demonstrate some of them.
