JANUARY 2016

January meeting started off with reports from Carl concerning our bank balance and the library improvements. we are considering getting the turning series from the AAW. We also considering redoing the constitution and By laws for our Guild.

Since our 2015 Turnfest was well received Carl was thinking we should organize one for this September/October. He also mentioned our drop-in sessions which were held in Port Elgin. Afternoons seem to be working out better than the evenings.

Dirk Hoogendoorn raised the point that our club should be doing more to advertise activities in the Kincardine area.

Verne Miller from Lethbridge's Chinook Guild is encouraging our guild to participate in Beads of Courage program. In involves turning lidded boxes for storage of courage beads given to seriously sick children. Visit web site for further details. (www.beadsofcourage.com)

We then did our usual show and tell and Raffle draw were held.

Following the meeting Peter Fabricius Mr. Jig King showed showed us how to do fluting and indexing with our lathes. It was fascinating and his jigs were great too!
